Emergency Plan

Fire/Explosion

If you discover fire or see smoke:

Gather the following information and call University Police at 911 from a campus phone or (805) 437-8444 from a cell phone, or directly from a Blue Light emergency phone. Identify yourself and report the following:

1. Building name and address
2. Room/location of fire
3. Type of fire
4. Smoke or flame
5. Smoke odor

For large fires, evacuate the building and pull a fire alarm.

Evacuation

Building evacuation will occur via one of the following mechanisms:

1. When a building evacuation alarm is sounded.
 2. Upon notification by a University Police officer, or by a floor or building marshal.
 3. When a signal to evacuate the building is sounded, walk quickly to the nearest marked exit and ask others to do the same.
 4. Direct anyone you see to the closest stairwell for prompt evacuation to the assembly point outside.
 5. Building and floor marshals will be required to report on whether any staff are missing or are known to have remained in the building due to disability or injury.
 6. Assist people with disabilities in exiting the building.
 7. Once outside the building, move to the nearest parking lots or to Ventura Street. Stay at least 100 feet away from any affected buildings or structures.
 8. Keep streets and walkways clear for emergency vehicles and personnel.
 9. An Incident Command Post may be established near the emergency site.
 10. DO NOT return to an evacuated building unless directed to do so by a University Police Officer or by a building or floor marshal.
- Under no circumstances should any person unilaterally decide to ignore a fire alarm, fire drill or a request for evacuation in order to continue working without interruption.
